

What is **Take5**?

It is a highly customized yet affordable way for organizations to tap into focused expertise in all areas of nonprofit management. **Take5** provides our clients with a "cabinet" of highly experienced consultants who will listen, advise, explore options and provide recommendations specific to your organization. In these incredibly unpredictable and challenging times, organizations are seeking expert and objective counsel on how to stay relevant, viable, and well-positioned for an economic recovery.

Clients select 5 areas of focus from among:

- Program Design and Evaluation
- Fundraising
- Web 2.0 and Social Networking
- Marketing and Communications
- Human Resources
- Governance and Board Development
- Financial Management and Scenarios
- Effective Use of Technology
- Strategy and Planning
- Mergers, Partnerships and Collaborations
- Volunteer Engagement
- Earned Income Ventures/Social Entrepreneurship
- Team Building

Olive Grove Consulting will provide the client with a project manager and a team of experts to help identify options and foster effective decision-making in each of the five areas. Generally within 4-6 weeks, each client will receive a brief report highlighting options and recommendations in each area as well as additional resources, articles, links, and information. Should the client decide it requires more in-depth work in any particular area we can support more extensive work through a subsequent project.

Contact Emily Hall at emily@olivegroveconsulting.com or 650-591-4155.

Take5: \$5,000

Are you a philanthropist, foundation, government funder, or corporation that would like to help the sector navigate this challenging environment and provide the most meaningful impact to the community?
Consider providing a grant for one or a cohort of your grantees.
